It's very important to state early that the kingdom of God is here now. Christians often mistake the kingdom for the second coming of Jesus. When Jesus came, he repeatedly talked about the kingdom and gave clues after clues as to what it was. His most profound statement was when he said some listening to him would not taste death before experiencing the kingdom. Jesus erased the divide between Heaven and earth and by that act he brought the kingdom to us on this planet. Jesus established the kingdom and all the government was put on his shoulder. The kingdom started operating from that time on.

Kingdom has a king and domain

Jesus was made Lord when he paid the ultimate price to redeem us. He died and hence paid for our sins, he resurrected and so we will live and reign with him forever. Jesus is now in Heaven representing humans in the court of Heaven. The kingdom is invisible and so cannot be seen by eyes but its influence covers all creation. The headquarters is in heaven but its influence covers everywhere.

King is responsible for everything in his domain

Many are still struggling with provision because they don't understand the kingdom message. God is responsible for everyone in his domain. This means you need to liaise with him concerning your provision. He has provided for all before they were made. Ask your king for your own portion today.

Our majesty's pleasure

We serve at our majesty's pleasure and everything we do is by him and for him. We are Ambassadors and representatives of the government in heaven. When you realise who you are in Christ, then it will permeate every area of your existence. You will move and operate with his essence and the power of his might. You will remember always that you are not your own but the lords.

Exercise your divine right.

Provision, healing, promotion, partners everything you will ever need is in the kingdom. You need to exercise your divine rights by calling them forth. Many pray to God for what he has already given them. You need to speak to the situation and call it as you want it to be. You have the power to do all Jesus did and more. Going forward we have to operate by the kingdom, it's the only way in the days ahead. Shalom.
